SUMMARY

Self-taught Full-Stack Developer specializing in modern React/Next.js ecosystems. Built and deployed 3 production-ready applications implementing authentication, database design, API integration and responsive interfaces. Proven ability to translate concepts into scalable solutions using TypeScript, Prisma, and TailwindCSS.

SKILLS

- **Frontend:** Next.js 16, React 19, TypeScript, Tailwind CSS
- **Backend:** Node.js**,** Prisma ORM, PostgreSQL, REST APIs, Better-Auth, Server Actions
- **Tools & Deployment:** Git, GitHub, Cloudinary, UploadThing, Neon Postgres, Vercel, VS Code
- **Other Skills:** Full-Stack Development, Performance Optimization, Responsive UI

PROJECTS

Nexora — E-Commerce Platform | [Live Demo] | [GitHub]

- Built a complete e-commerce platform with product catalog, shopping cart, wishlists, and secure checkout flow, featuring responsive product listings with advanced filtering and search.
- Improved page load performance by **50%** using Next.js 16 server actions and cache components.
- Built comprehensive admin dashboard for real-time inventory management, products, users, categories and orders.
- Integrated secure authentication system with role-based access control, database management and image optimization using Better-Auth, Prisma + PostgreSQL and Cloudinary.

Car Rental — Full-Stack Platform | [Live Demo] | [GitHub]

- Developed full-stack car rental marketplace enabling users to book vehicles or list their own, with secure authentication and booking management.
- Built comprehensive admin dashboard for reviewing users, vehicle listings, and reservations.
- Implemented dynamic car listings with image upload via UploadThing, advanced filtering, and responsive UI using Tailwind CSS, shadcn/ui and Framer Motion.
- Created secure booking system with date validation, real-time availability checks, and relational database design using Prisma + PostgreSQL.

Blog Studio — Modern Blog Platform | [Live Demo] | [GitHub]

- Built a modern full-stack blogging platform with rich post creation, image uploads, categories, and real-time engagement through likes and comments.
- Implemented admin functionality for managing users, posts, and platform content with moderation capabilities.
- Implemented secure authentication with Better-Auth, scalable backend architecture with Prisma, and responsive UI with Tailwind CSS.
- Created performant architecture with optimized queries, real-time updates, and clean UX design.

EDUCATION & CERTIFICATIONS

- **React 18 Certification** — Code with Mosh (2024)
- **Self-taught Full-Stack Developer** (Next.js, React, TypeScript, Prisma, Tailwind, Better-Auth)
